

Olga Sergienko

Geophysical Fluid Dynamics Laboratory
201 Forrestal Rd.
Princeton, NJ, 08540, USA
phone: +1-733-366-5381
Email: osergien@princeton.edu

Education

The University of Chicago

PhD Geophysical Sciences, Advisor: Douglas R. MacAyeal
Dissertation: *Surface melting on ice shelves and icebergs*

Chicago, IL, USA

2001–2005

Moscow Engineering Physics Institute (State University)

Candidate of Sciences (PhD equivalent), Physics an Mathematics, Advisor: Oleg V. Nagornov
Dissertation: *Numerical modeling of heat and mass transfer under an ice shelf and on its base*

Moscow, Russia

1996–1999

Moscow Engineering Physics Institute (State University)

M.S. Physics (awarded with distinction), Advisor: Boris M. Tulinov
Dissertation: *Numerical simulations of radioactive waste burial in permafrost*

Moscow, Russia

1989–1995

Employment and professional activity

Princeton University

The Program in Atmospheric and Oceanic Sciences
Research Glaciologist (12 months salary)

Princeton, NJ, USA

2014–present

In collaboration with researchers from the Cooperative Institute for Modeling the Earth System (Princeton University) and scientists from the Geophysical Fluid Dynamics Laboratory (GFDL) developing a dynamically coupled ice-sheet component of the GFDL climate model. Facilitating development of a framework to represent icebergs in global ocean circulation models and its implementation in the GFDL ocean model MOM6. Conducting research on dynamics and stability of marine ice sheets, ice/ocean interactions, flexural dynamics of ice shelves, application of inverse methods techniques to glaciological problems. Supervising postdoctoral fellows.

Princeton University

The Program in Atmospheric and Oceanic Sciences
Associate Research Scholar (12 months salary)

Princeton, NJ, USA

2009–2014

Facilitated model developments to allow for sub-ice-shelf circulation in the GFDL ocean model. Conducted research on the ice/ocean interactions, flexure of ice shelves, developed inverse method techniques and applied to glaciological applications. Supervised postdoctoral fellows and graduate and undergraduate students.

Portland State University

Geology Department
Research Assistant Professor

Portland, OR, USA

2008–2009

Investigated mutual interactions between the basal traction, subglacial lakes and ice-stream flow.

NASA Goddard Space Flight Center
Hydrospheric and Biospheric Sciences Laboratory
NASA Postdoctoral Fellow, mentor: Robert A. Bindschadler

Greenbelt, MD, USA
2006–2008

Applied inverse methods to infer basal conditions under Bindschadler Ice Stream from surface observations. Developed numerical models to investigate the effects of dynamic subglacial lakes on the ice-stream flow.

Moscow Engineering Physics Institute (State University)
High energy-density physics Department
Docent

Moscow, Russia
2000–2001

Developed and taught courses *Mechanics of fluids and gases* (introduction and advanced), *Introduction to solid state physics*. Supervised a master student Nadezhda Boiko, MS, 2001 (thesis: *Thermal regimes in the vicinity of buried radioactive waste containers*).

Moscow Engineering Physics Institute (State University)
The High energy-density physics Department
Lecturer

Moscow, Russia
1999–2000

Developed and taught a course *Introduction to solid state physics*. Supervised a master student.

Teaching

- **Guest Lecturer** at Princeton University 2013–2015, 2018
 - Courses: Introduction to Ocean Physics for Climate, Introduction to Physical Oceanography
Special topics: the role of the cryosphere; ice-sheet dynamics; ice/ocean interactions
- **Summer school lecturer/instructor** 8-19/06/2010
 - Advanced Climate Dynamics Courses
 - Lectures: *Ice-shelf dynamics; Special Processes at the Ice Front; Inverse Modeling*
- **Summer school lecturer/instructor** 6-15/08/2009
 - Ice Sheet Modeling Summer School
 - Lectures: *Ice-stream dynamics; Ice-shelf processes; Inverse Modeling*
- **Teaching assistant** at the University of Chicago 2001–2005
 - Courses: Earth's ice age, Global Climate Change, Introduction to climate dynamics
- **Docent, Lecturer** at Moscow Engineering Physics Institute (State University) 1999–2001
 - Courses: Mechanics of fluids and gases (introduction and advanced), Introduction to solid state physics

Advisees

Undergraduate

Kasturi Shah, Senior Thesis, Princeton University 2014–2017

Graduate

Justin Hiester, MS Thesis, Portland State University, 2010–2013
Nadezhda Boiko, MS Thesis, Moscow Engineering Physics Institute (State University), 1999–2001

Postdoctoral Fellows

Alexander Huth 2020–present

Elisa Mantelli	2019–2021
Currently University of Tasmania, Lecturer	
Anders Damsgaard	2017–2018
Currently Aarhus University, Marie-Skłodowska Curie fellow	
Michael Wolowick	2016–2018
Currently Beijing Normal University, postdoctoral fellow	
Alon Stern	2015 –2018
Currently Slide Financial Ltd, founder	
Marianne Haseloff	2015–2017
Currently Northumbria University, VC Senior Fellow	
Yonggang Liu	2012–2014
Currently Peking University, Associate Professor	
Daniel N. Goldberg	2009–2011
Currently the University of Edinburgh, Reader	

Field experience

Icebergs of the Ross Sea, the Ross Ice Shelf and McMurdo Ice Shelf	Antarctica
	2004-2006

Research grants

• NOAA NA13OAR4310097 Lead PI	01/09/2013–31/08/2017
“Collaborative Research: Representing Calving and Iceberg Dynamics in Global Climate Models”	\$1,295,000
• NSF PLR-1246151, co-PI	01/06/2014–01/06/2017
“Collaborative Research: Dynamic Response of the Ross Ice Shelf to Wave-Induced Vibrations”	\$42,000
• NSF ANT-0838811, Lead PI	15/07/2009–30/06/2013
“Model investigation of ice stream/subglacial lake system”	\$375,543
• NSF CMG-09344534, co-PI	15/09/2009–31/08/2013
“Enabling ice sheet sensitivity & stability analysis with a large-scale higher-order ice sheet model’s adjoint to support sea level change assessment”	\$68,968

Recent invited talks

• Marine ice-sheet instability is the exception not the rule	23/06/2021
International Glaciological Society Global Seminar Series	virtual
• Marine ice sheets: stability and dynamics of their grounding lines	23/06/2020
Sea Level Rise Seminar, NASA Goddard Institute for Space Studies	virtual
• Grounding line conditions of marine ice sheets	15/01/2020
Mathematical Modelling in Glaciology workshop	Banff, Alberta, Canada
• Interactions between ice sheets and the rest of the Earth system	28/11/2018
California Institute of Technology	Pasadena, CA, USA
• GReenland Ice Sheet-Ocean interactions (GRISO)	10/08/2017
US CLIVAR Summit	Baltimore, MD, USA

Awards

NASA Postdoctoral Fellowship

NSF Medal for Service in Antarctica

Kavli Frontiers of Science Fellow

Synergistic activities

Editor of *Journal Geophysical Research: Earth Surface*

Selecting Committee Member of the Climate & Global Change Postdoctoral Fellowship Program

Co-chair of the U.S. CLIVAR Greenland Ice Sheet/Ocean Interactions Working Group

Grant proposals reviewer and panelist: NSF, NASA, NOAA, DOE, Schimdt Futures, European Science Foundation, UK Natural Environment Research Council, Dutch Research Council, Royal Society of New Zealand, Australian Research Council
